Skills

Summary

As a seasoned software development professional, I possess expertise in the development and design of web applications, leveraging technologies such as HTML, CSS, JavaScript, Angular, Node.js, and React. Proficient in the creation and deployment of sophisticated backend systems, web services, and databases, including MySQL and MongoDB. I bring a wealth of experience in delivering comprehensive solutions for diverse projects.

Professional Experience

I'm currently studying B.Tech, and during this period, I have successfully completed projects such as a Retail Store Management System using HTML, CSS, JavaScript, PHP, and MySQL DB. Additionally, I am actively involved in a React app project. I have also acquired Full-Stack Web Developer certification from the 2024 Full Stack Web Development Bootcamp provided by Udemy.
